

Claims Element™

"...Instead of spending time re-keying insurance estimates, I am now able to retrieve them with the click of a button directly from within the estimating application. I am impressed with the new and innovative functionality within Claims Element, which saves my business at least a half an hour every time I avoid manual re-key."

Kathie Wright, Walled Lake Collision, Walled Lake, Michigan

Access Insurance Adjustor Estimates Instantly

With AudaExplore Claims Element, collision repair professionals can easily access insurance adjustor estimates prepared electronically using AudaExplore solutions. They can then download them directly into AudaExplore estimating platforms through a secure server. As a fully integrated, add-on module to the AudaExplore estimating suite, Claims Element works seamlessly with AudaExplore estimating platforms.

Eliminate Re-Key. Improve Productivity.

AudaExplore Claims Element eliminates the need to re-key estimates, automatically driving greater accuracy and saving collision repair facilities significant time—an average of 30 minutes per estimate. The end result: better workflow, faster cycle times, and greater customer and insurance carrier satisfaction.
